EXPLANATION OF RELEVANCE

Each of the above references discloses a magnetic recording head employing a permanent magnet. In the various references, the permanent magnets are arranged in various configurations with regard to the magnetic gap, and the other

components, but none of these references disclose the use of a permanent magnet to increase the write field of the head, as disclosed and claimed in the present application. Specifically, none of the references discloses a pair of anti-parallel permanent magnets located in the gap of a write head, as also disclosed and claimed in the present application.

Copies of each of the above references together with Form 1449 are submitted herewith.

As of the date of mailing of this Information Disclosure Statement, a first Office Action on the merits has not been received in connection with this application, and therefore, this Information Disclosure Statement is in compliance with 37 C.F.R. §1.97(b)(3), and no fee is necessary.

All claims of the application are submitted to be patentable over the teachings of the above references, taken singly or in combination. Early consideration of the application is therefore respectfully requested.
